

Synthesis and characterization of an alkaline aluminum solution using tetraethylammonium hydroxide

Ai Fujiwara, Taketoshi Kuroda and Kiyoharu Tadanaga

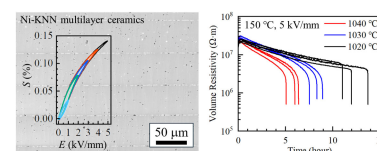

361

Sintering temperature affects the insulation resistance degradation of (K,Na)NbO₃-based lead-free piezoelectric multilayer ceramics with Ni internal electrodes

Kentaro Ichihashi, Koji Maruyama, Koki Nakagawa, Hideto Yamada and Yoshinobu Hirose

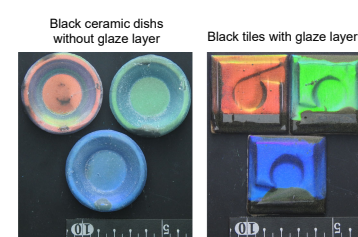

368

Structural color coatings for ceramics and glass surface by silica opal films

Hiroshi Fudouzi

375

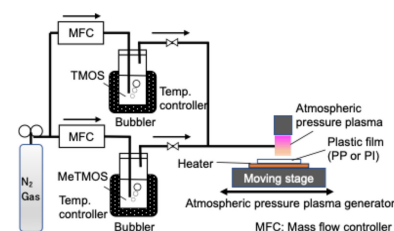

◆ Note ◆

Preparation of inorganic–organic hybrid gas barrier films by atmospheric-pressure plasma-enhanced chemical vapor deposition

Koji Kuraoka and Riku Nishimaki

383

◆ Announcements ◆

The 1st (FY2025) CerSJ Fellow (International) Award Recipient
