e-Publishing Contribution to a domestic bulletin

'07/7/1 in print (5880 copies)

Postprint on line at the same time

"Manuscript writing support system for researchers based on hypertext list of their achievements" using BIBTEX& Ruby

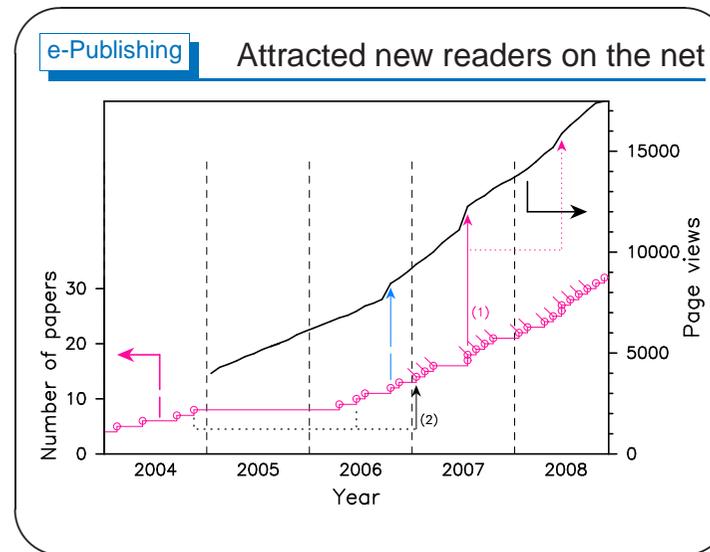

Slide 8

e-Publishing Notice to T_EXnicians

'07/7/1 in print (5880 copies) → '07/7/2 Announce +700 views on Wiki

The screenshot shows a web browser window displaying the TeX Wiki page. At the top, there is a navigation bar with 'e-Publishing' and 'Notice to T_EXnicians'. Below this, a timeline indicates that on '07/7/1, the page was 'in print' with 5880 copies, and on '07/7/2, it was announced on Wiki, resulting in +700 views. The main content area features a search bar, a list of links, and a section titled 'TeX 関連情報' (TeX Related Information) which includes a list of links and a paragraph of text.

Slide 9

Slide 11

e-Publishing Reply to "How to organize e-files"

'07/7/1 in print (5880 copies) → '07/7/2 Announce on Wiki → '08/6/22 Post +200 views on a news site

The screenshot shows a Slashdot news article. The title is '研究職限定ですが、' (Researcher-only, but...). The article text discusses the author's experience with organizing e-files and mentions a system they developed. The article is dated 'Sunday June 22, @05:14PM (#1368597)'. The Slashdot interface, including the search bar and navigation links, is visible.

Slide 10

More about myself Why am I eager for self-archiving?

e-Publishing Attracts new readers even if non-reviewed & domestic.

実験ノートの電子化について [編集]

最近では、電子式の実験ノートを使う研究者も増えてきている。検索性については電子式が圧倒的に勝るものの、証拠能力やとっさの記録への対応等の点において疑問視する声も根強くある。^[14] このように、実験ノートの電子化については、現状根強い批判がある。一方で計測機器の電子化に伴い、従来の「紙ベースの記録」を効率化する情報環境、*Appl. Surface Sci.*, 252, 7, pp. 2640-2645 (2006).
http://www.geocities.jp/tokyo_1406/node5.html#Todoroki05AS5J@

電子式の実験ノートの最大の利点は、その検索性にある。例えば、物質・材料研究機構の轟道市らは、計測機器の電子化に伴い、従来の紙ベースの実験ノートを使い続けられ「必然的に、『計測機器が出力したデータ』と、『紙ベースの記録』とにデータが散逸することになり、情報の整理や、実験結果の解析、及び、記録に基づいた実験へのフィードバックなどに支障が出ることを指摘している^[15]。

Episode I
Early afternoon in Stockholm

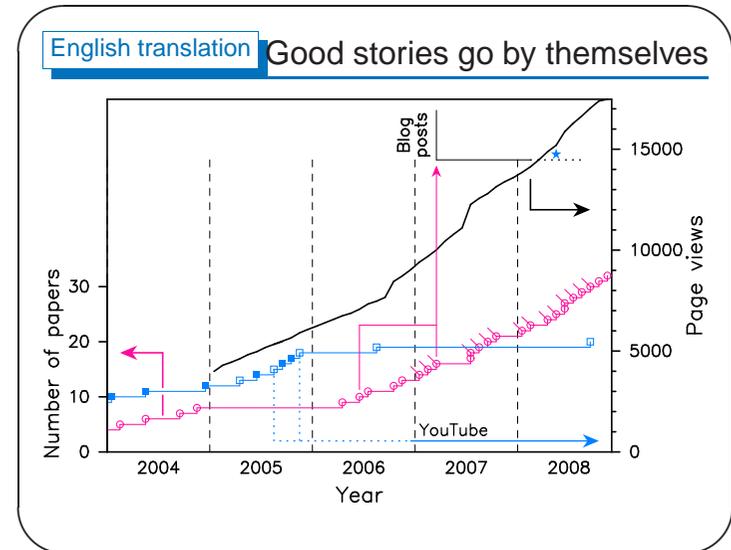

I participated in the European Conference on Optical Communication held in September 2004. After having lunch at a sushi bar popular with some locals, I checked the conference notice board and was greatly surprised. My paper had unexpectedly been accepted as a postdeadline paper [1]. "Those

"I have read it with great interest."

Slide 24

OVERVIEW

How we pave the way of NIMS eSciDoc? –A user's opinion

More about myself 

Self-archiving is a path beyond my specialist area.

Carrots in front 

How we promote submission by users?

Win-win strategy 

What is the next step for each of them?

Slide 25

Carrots in front 

How we promote submission by users?

Top-down approach

Rewards for submission

Greener grass effect[†]

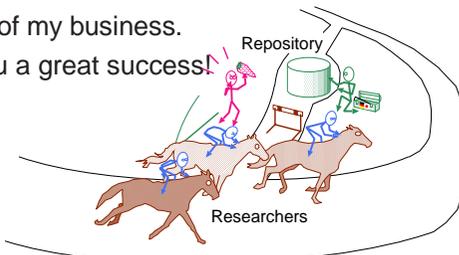

[†]The **grass** is always **greener** on the other side of the fence.

Slide 27

Background Ordinary researchers' awareness

- What is **institutional repository**?
- I'm happy with e-Journals. What else do I need?
- OK, here's my list. Could you submit them for me?

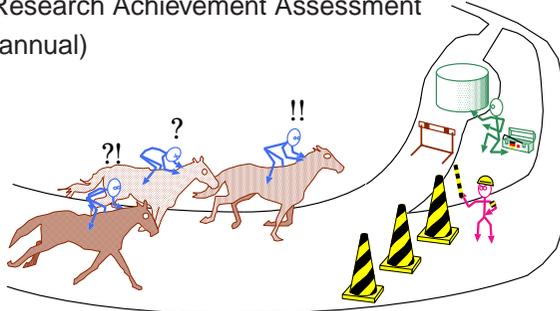

⇒ It's none of my business.
I wish you a great success!

Slide 26

Top-down approach linking performance appraisal

- Application for the Release of Research Products (any time)
- ⇒ Research Achievement Assessment (annual)

Slide 28

Rewards for submission

Access Statistics

- Time-series & total amount for each user

- Time-series & country by country, like

Slide 29

Greener grass effect

Show old users' cases

- People never act without knowing its profit
 - ⇒ Change their idea: **"Waste of time"**
- Let them read the collections in their mother tongue
 - ⇒ Once knowing its value, they will submit articles.

Slide 31

Rewards for submission

List of search queries

| Date | Keywords | Time | Search Engine |
|------------------------|------------------------------|---------|---------------|
| Tuesday 11th November | Blog-based research notebook | 04:37am | Google(Japan) |
| Wednesday 5th November | "optical fuse" "fiber fuse" | 02:55am | Google(Italy) |
| Thursday 30th October | shin-ichi electronic DEVICES | 08:36pm | Google(China) |

Slide 30

Carrots in front

How we promote submission by users?

Top-down approach

"No submission, Nothing evaluated" policy urges them.

Rewards for submission

Detailed statistics of page views are good incentives.

Greener grass effect

Practical cases using domestic articles stimulate them.

Slide 32

OVERVIEW

How we pave the way of NIMS eSciDoc? –A user's opinion

More about myself 

Self-archiving is a path beyond my specialist area.

Carrots in front 

Page view statistics & users' stories attract new users.

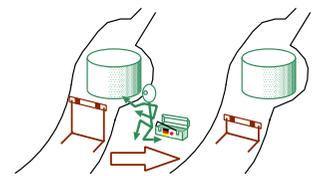

Win-win strategy 

What is the next step for each of them?

Slide 33

System developers

- Minimize the tasks of researchers & librarians
 - ⇒ Input once and all
 - ⇒ Affiliations: present and has-been
 - ⇒ Describability of related items (translation, serial)
- Provide API for customizing original webpages
 - ⇒ Automatic homepage generation

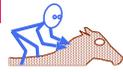

Slide 35

Win-win strategy 

What is the next step for each of them?

System developers 

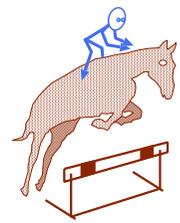

Researchers 

Librarians 

Slide 34

Researchers

- Disseminate your off-line work through eSciDoc
 - ⇒ e-Publication attracts additional readers
- Submit domestic articles w/o peer-review
 - ⇒ Easy to find response on the net

Slide 36

Librarians

- Find examples of usage & show them to other users
- Exhibit collections from a viewpoint of curators

Slide 37

Expectations Catch up with / Beyond e-Journals

- Cross reference
- Related documents, Alert on new submission
- Management of achievements / related papers
- Rapid release of new services based on open source software

Slide 39

Learn from traditionals Kawasaki library's case

- Exhibition of "serendipity" containing my article

51 books & 19 articles
2007
5/11- 6/13

Slide 38

Win-win strategy

What is the next step for each of them?

System developers
Reduce the others' tasks to enrich their outputs.

Researchers
Use it as a new path to disseminate their achievements.

Librarians
Exhibit collections to enhance submission & usage.

Slide 40

SUMMARY

How we pave the way of NIMS eSciDoc? –A user's opinion

More about myself

Self-archiving is a path beyond my specialist area.

Carrots in front

Page view statistics & users' stories attract new users.

Win-win strategy

Integrate each output to create new value of repository.
